

Information via

Just saw this information come through overnight regarding Zika and processes to be held for 3 destinations in China.

Regarding Zika restriction in China, since WHO have added USA as Zika related area, until now SHA, NBO and DLC three local CIQ(CHINA ENTRY-EXIT INSPECTION AND QUARANTINE) announced the application of de-insectization work for cargos moved from USA.

For full cnts moved from Zika related area, as per China local regulation, CIQ will carry out de-insectization work and make payment directly with customer after discharging at POD if they do not provide the fumigation certificate approved by POL CIQ. Please find the below table for application detail by location.

And as for empty cnts, if carrier side do not provide the certificate, CIQ will carry out de-insectization work.

So far there has been no more detailed notice. Will update later when getting more information
