

OOCL receives AgTC 2024 Recognized Ocean Carrier award

OOCL is honored to receive the **2024 Recognized Ocean Carrier** award as a result of the Ocean Performance Survey conducted by the Agriculture Transportation Coalition (AgTC). The votes of the AgTC members are a direct voice from our customers and a testimony to OOCL's commitment to providing quality services and *taking it personally*.

The award was announced and presented by the AgTC Executive Director, Peter Friedmann on May 21, 2024, at the 36th Annual Meeting of the AgTC in Tacoma, Washington.

We want to thank the AgTC members and committee for the ongoing support and opportunity to service our agricultural community as a top business partner.

The AgTC survey is conducted each year by all US agricultural and forest products exporters and importers ranking the performance of ocean carriers who have transported both dry and refrigerated commodities.

The award is considered a benchmark used by the agricultural community in the selection of carriers and the ranking is based on the following performance elements according to AgTC, which includes but not limited to:

- Availability of equipment and space on vessels.
- Document accuracy and efficiency.
- Willingness to accept export documentation late.
- Advertised vs. actual vessel schedule and transit time.
