No press, ocean carriers or ports -- with the exception of invited high level Discussion Leaders above -- so the discussion can be frank and direct!

- **Any transportation concern/question you have, this is the time and place to raise it!**
- Seattle/Tacoma terminals appointment fee
- Ocean carrier service – frequency of sailings, new carriers into the Columbia River and Puget Sound?
- Terminals' reduced hours and days, blank sailings + other service reductions, even with 'surging' import cargo volumes
- Trump Transition - New tariffs, will they lead to China and other countries' retaliation against US agriculture exports?
- Locking the ERD? Carriers notification of changes to ERD, loading window, cargo cut dates & times, free time.
- Detention & Demurrage – new FMC dispute resolution options
- East and Gulf Coast Longshore Contract – Awaiting Union Approval
- Oregon/Washington plans to legislate restrictions on diesel, mandate zero-emissions trucking
- Carriers soon required to submit their export shipping plans
- Chassis 'Box Rules' –you have freedom to use any chassis you or your trucker wish.
- Avoiding Red Sea and Suez Canal – how shippers are adapting
- AgTC Initiatives on behalf of ag exporters, importers and service providers

This is a Discussion, not speeches!
